

3nine

SLS oil skimmer

Innovative and cost-saving technology for cleaning of cutting fluid.

Efficiently separates the tramp oil from the coolant and extends the life of your cutting fluid.

Feature

Advantage

Value

Innovative technology for cleaning of cutting fluid.

Low maintenance requirements.

Lower operating costs.

Compact and easy design.

Low installation cost.

Stainless steel construction.

Can manage high pH concentration.

Effectively cleans multiple types of cutting fluids.

Effective screw technology.

High capacity at low viscosity, up to 850 ml/h.

Lower cost for the purchase of cutting fluid.

Minimal loss of cutting fluid.
